

## Systemic Constellations Workshop

an introductory workshop

introducing Systemic Constellation work

with Tania Tuft

at Re-Vision on Saturday 4th January 2020 10am – 5pm

Re-Vision 97 Brondesbury Road, Queen's Park, NW6 6RY

**Systemic Constellations** and The Orders of Love originated with the work of Bert Hellinger. Mapping out a constellation is a way of accessing the deep dynamics of a system and can be done with individual clients, couples, families and organisations. Insight and acknowledgement of intergenerational entanglements can be profound for people presenting with stuck patterns and difficult relationships.

In this one-day workshop we will look at the key elements of Systemic theory and method with a view to enhancing your own interest and client work. The workshop is suitable for qualified counsellors and psychotherapists as well as those studying to become a therapist.

**Tania** is a Gestalt therapist with two London practices. She undertook a post qualification training with the Centre for Systemic Studies, where she is an Associate Member. She works with individuals, couples and groups, and is delighted to be able to introduce this work to practitioners and curious people.

### How to book:

Please contact [tara@re-vision.org.uk](mailto:tara@re-vision.org.uk) saying how you heard of the workshop and letting us know if you are a student or a practising therapist. Please also let us know if you are a Re-Vision graduate.

The workshop is free but we would ask participants to consider a voluntary donation of perhaps £25 to the Revision Student Bursary Fund - this could be given on the day or sent by bank transfer to: ReVision Ltd, bank transfer via: Co-operative Bank, 08-92-99, Account name: Revision Ltd, a/c no: 65301472, reference SCDonation.

Tania can be contacted at [Tania.gestalt.therapy@gmail.com](mailto:Tania.gestalt.therapy@gmail.com) or [www.gestaltinpractice](http://www.gestaltinpractice)
